Eastern Mediterranean University Famagusta, Cyprus
Bachelor of Science in Economics *Graduated Feb 2022*
GPA: 3.87
Relevant Coursework: Monetary Theory and Policy, Macroeconomic Analysis

ACADEMIC PROJECTS AND WRITING

Time Series Econometrics Baum Tenpers Institute
Time Series Econometrics Final Project *Dec 2024*

- Engineered a multi-series time series pipeline in R to assess stationarity and apply appropriate transformations across the S&P 500 and 5 individual stocks to prepare data for econometric modeling.
- Estimated a Vector Autoregression (VAR) model to capture interdependencies across 6 financial series, generating multi-step forecasts to evaluate predictive performance and market dynamics.

ECON403 Monetary Theory and Policy Eastern Mediterranean University
The Response of Major Central Banks to the COVID-19 Pandemic *Jan 2021*

- Documented and compared the monetary policy responses of 5 major central banks, including the Federal Reserve System, to the COVID-19 pandemic shock.
- Tracked policy actions across conventional and unconventional tools, including repo operations, rate cuts, international swap lines, and reserve requirement changes, compiling both the timing and magnitude of the measures.

ECON105 Research Methods and Project Design Eastern Mediterranean University
Impact of hyperinflation on health expenditure in Zimbabwe between 1997 and 2010 *May 2019*

- Provided an analytical review of existing literature on hyperinflation in Zimbabwe and challenges facing expenditures.
- Analyzed economic data pulled from the World Bank Database using Excel and built tables and graphs to visualize relationships between hyperinflation and health expenditure variables.
- Wrote a research report summarizing findings on causes of Zimbabwe's hyperinflation and their implications for public health spending from 1997 to 2010.

PROFESSIONAL EXPERIENCE

Swaziland Building Society Nhlangano, Eswatini
Forex Teller *Mar 2025 – Jan 2026*

- Processed local and cross-border transactions across 50+ customer requests/ per day, verifying exchange rates, fees, and documentation to reduce discrepancies by 30% while maintaining 100% compliance with branch cutoff procedures.
- Served on a cross-functional focus group responsible for evaluating customer experience processes and developing actionable recommendations to enhance service delivery, customer experience, and brand engagement.
- Generated weekly and monthly financial analytics reports to monitor liquidity positions and transaction trends, supporting operational and strategic oversight.

Teller *Mar 2024 – Feb 2025*

- Delivered monthly financial report presentations to branch management, translating transactional data into actionable insights.
- Balanced 50+ daily cash transactions and resolved cash differences with precision, strengthening cash-flow security through improved tracking and documentation systems in Excel.

SKILLS

R, Microsoft Excel, Data Analysis & Visualization, Regression Analysis, Literature Review, Zotero, Communication, Collaboration, Presentation, Detail-Oriented
